SSB

- dish direction in north direction because of the satelite is on equator and the part of southern / northern hemisphere should focus thier disk to equator. thats why in india direction of all the dish is in south direction beacuse we l ive in northern hemisphere

- - rf is is two module one is receiver and second is sender.
  - both can be used as remote for relay,car etc.
  - raspberry pi send send any rf with rpitx

- 1090mhz is used for airoplane conversasitions

- 978mhz is used for traffic & weather data (mainly in USA)

- A website called https://ollydbg.de/Paperbak/ has a windows program to backup any file to a paper. as qr dots and it can be retrived aging by the same program.
