1

Important

Glandular system

Exocrine
→ Duct is present
→ mainly it secrets enzymes
Ex:- * Liver (largest gland of human body)
* salivary glands
* Sweat gland
* Lachrymal (or tears) glands

Endocrine
→ ductless
→ mainly secrets hormones
Ex:- pineal gland
Thyroid gland
parathyroid
Adrenal gland (located just above the kidneys)
pituitary gland (located in brain)

Mixed
→ It secrets enzymes as well as hormones.
Ex:- pancreas
Testis
ovary
